

CIVIL & BUILDING CONSTRUCTION

Your trusted civil and construction

Part of the Slabvest Group of Companies

<https://slabvest-projects.co.za>

Introduction

WHO WE ARE

Slabbuild is a civil and building contractor based in the Vaal Triangle, working across Gauteng, North West and the Free State. We're a family business, founded by two brothers and still run by them. Jonatan Slabbert is a civil engineer, Frank Slabbert is a project manager. Between them they carry over 30 years of combined experience.

Directors run projects themselves. Decisions reach a director the same day. No head office, no layer between you and the people who own the company.

“A contractor who takes work off your hands, rather than one who creates it”

The

HONEST VERSION

Most profiles tell you everything a company is good at. Here's the honest version - the things worth knowing before you put us on a project.

Q

Question

A

Answer

Fastest?	No. We programme realistically and hold to it.
Cheapest?	We try. Not always. If lowest price is your only filter, you'll find others.
Biggest?	Not yet. We run lean on purpose, so the directors stay in every project.
Will we walk mid-job or at the end?	We never have. Not once. Not on the snag list.
Will we fix our own mistakes, at our cost?	Always have.
Any legal dispute history?	None. Not the Consumer Ombud. Not court.

WHEN WE GET IT WRONG

Over the last five years, we've absorbed more than R2 million in costs from our own quoting and scope errors — the largest a civil's scope we read wrong, and two roofs we ordered in the wrong colour and profile and replaced at our cost. The client carried none of it. We did. We see that as the cost of being the people we say we are.

We are **TRUSTED BY**

We work alongside consulting engineers regularly, and several of them refer their clients to us. Two are happy to put their names to it:

Engineers

GDL Consulting

Frikkie van Zyl

Civil & Structural Engineering
Services

TIJANE PROJECTS

Tiyani Hlaisi

Civil & Structural Engineering
Services

OUR SERVICES

Full civil and structural scope, and we build. On many projects we do both — one contractor, one point of accountability, from the ground up.

INFRASTRUCTURE

CONCRETE WORKS

STRUCTURES

COMMERCIAL BUILDINGS

RESIDENTIAL BUILDINGS

ROADS & STORMWATER

Plus full general building, from foundations to handover. We own our plant through Frank's Plant & Truck Hire — standard site work never waits on a hired machine.

Selected **PROJECTS**

The Hive - Vanderbijlpark

Business & storage park —
civils, structures, services,
paving, solar

Value
R35m

Pendale Factories, Meyerton

Four factory units — earthworks,
stormwater, sewer, concrete,
brickwork

Value
R20m

Vida e Café, Potchefstroom

Civil works & site infrastructure

Value
R2m

Tebogo Concrete Works, Vaal River

800m² suspended slabs, taper edges, skylights

Value
R3m

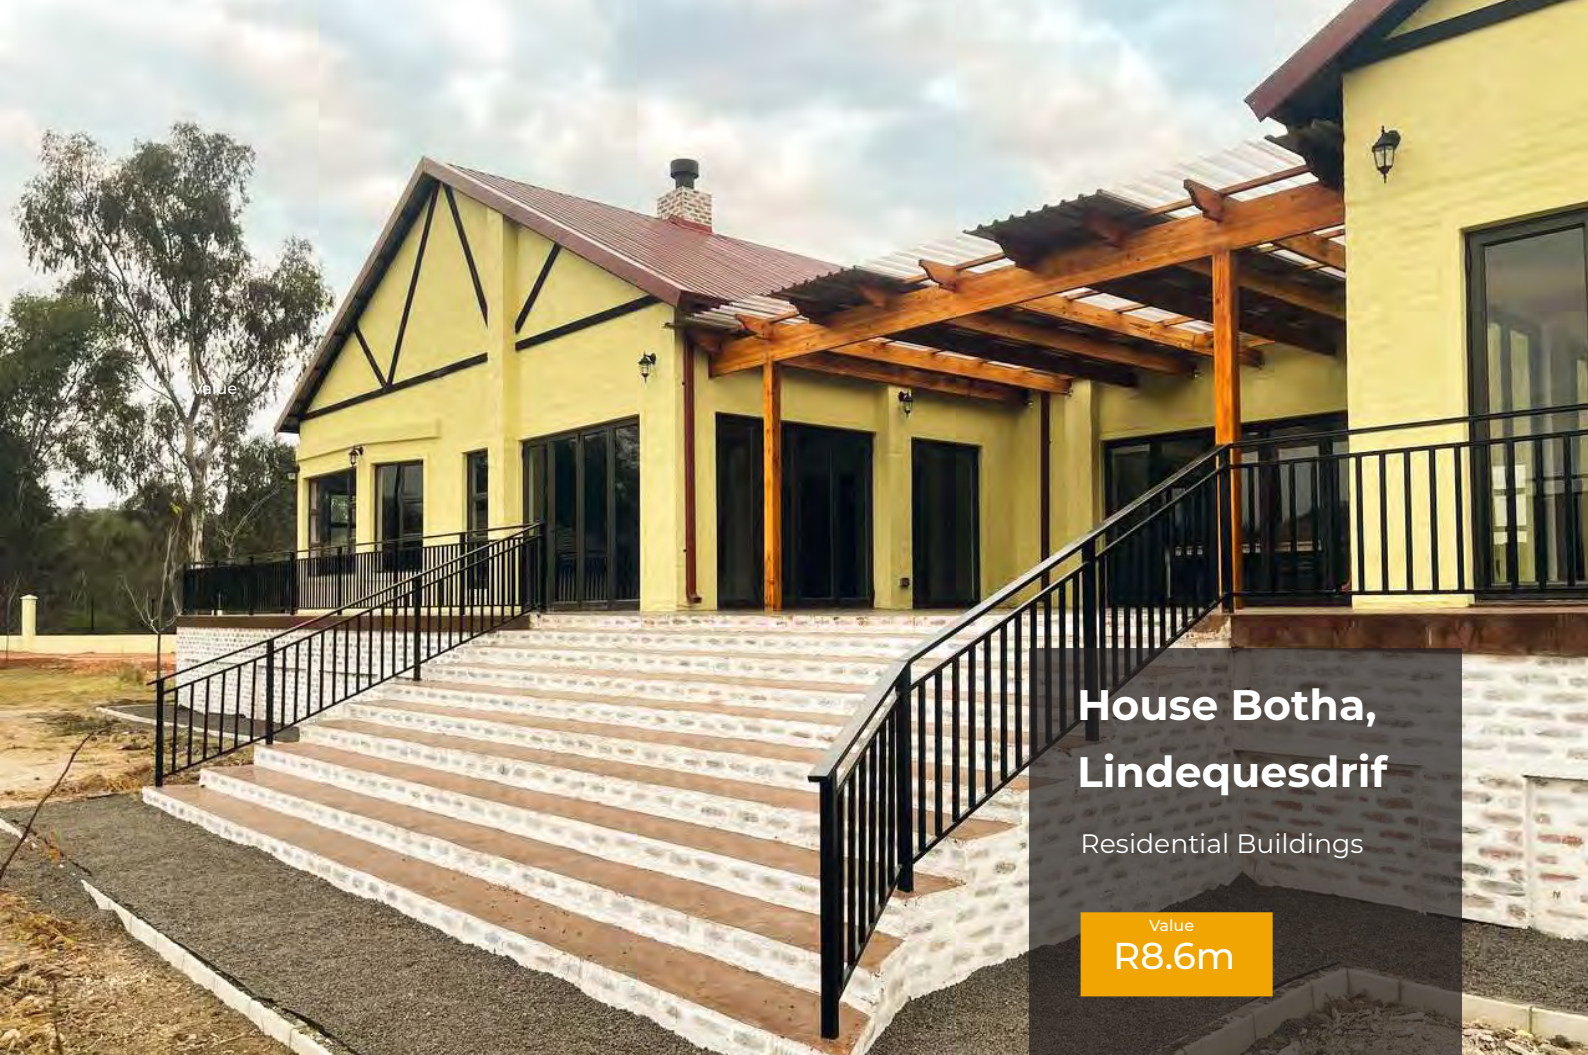

House Kriel, Modimolle

House Botha, Lindequesdrif

Residential Buildings

Value
R8.6m

Kings Resorts Lodge, Vaal Dam

Civil works & site infrastructure

Value
R10m

The Hive Potchefstroom

Business & storage park.
Still in progress

R65m

THE HIVE

Vanderbijlpark

One of our directors, Jonatan, is a member of the Hive Development Group. The other investors chose Slabbuild as the contractor for both phases — R35 million built in Vanderbijlpark, R65 million now in progress in Potchefstroom. When the people who know us best put their own money on the line, they build with us. That decision is on record.

**“When the people
who know us best
build with us”**

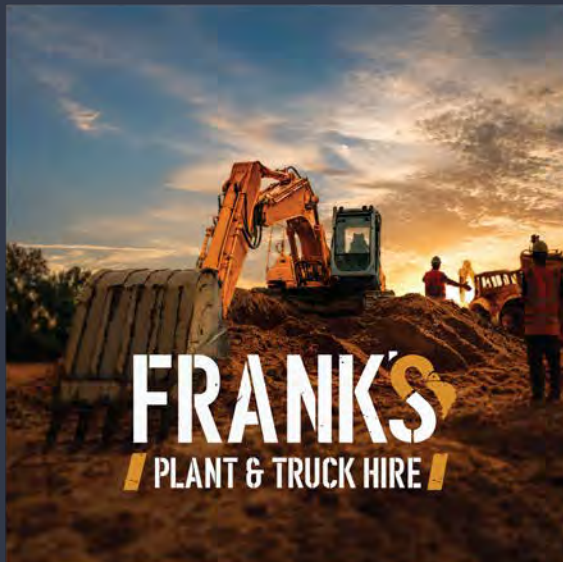

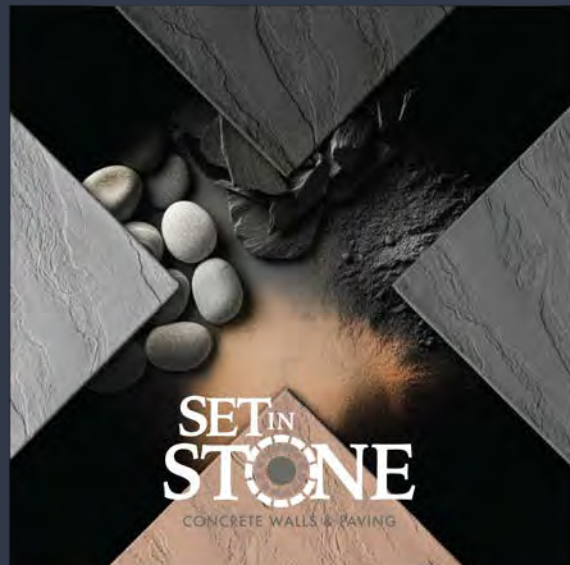

Slabbuild is the construction arm of the Slabvest Group — a family of trades: Set in Stone, Pick-a-Kitchen, Slabcrete, Slabtrade, Slabcraft, and Frank's Plant & Truck Hire.
